📍 Calderón, Calderón, Dominican Republic

ABOUT ME

Full-Stack Developer with 3+ years of experience building scalable web and mobile applications in production environments. Specialized in React, Next.js, and Node.js, with a strong focus on software architecture, performance, and maintainability. Proven experience in designing and developing APIs, distributed systems, and event-driven architectures using RabbitMQ, consistently delivering end-to-end solutions with direct impact on end users.

SKILLS

React
React Native
TypeScript
Next.js
Node.js
Microservices
RabbitMQ
PostgreSQL
REST
API Design
WebSockets
MySQL
GraphQL
Distributed Systems
Performance Optimization
Security Best Practices
Real-time Data Processing
Jest
CI/CD

WORK EXPERIENCE

FULL-STACK DEVELOPER / INTELLISYS D' CORP - THE BRAIN | *Intellisys D' Corp - The Brain*

- Designed and implemented **full-stack architecture** from scratch for **scalable web applications** and backend services
- Developed **APIs** using **GraphQL** and **Prisma**, improving **data consistency** and **operational efficiency**
- Implemented a granular **permission system**, enhancing **security** and **access control**
- Standardized **APIs** and project structures, reducing complexity and improving **maintainability**
- Designed **event-driven architecture** using **RabbitMQ** for scalable and asynchronous processing
- Managed a **monorepo** with reusable packages, accelerating development across multiple applications

FULL-STACK DEVELOPER / INTELLISYS D' CORP - FERREMUNDO | *Intellisys D' Corp - Ferremundo*

- Developed and maintained **web** and **mobile applications** using **React** and **React Native**
- Implemented and integrated **APIs** with **Node.js**, improving **frontend-backend communication**
- Enhanced **application performance** and **stability in production**, reducing errors and failures
- Implemented automated **testing** with **Jest** to ensure **code quality** and **reliability**
- Contributed to **CI/CD** processes, enabling faster and more reliable **deployments**

FULL-STACK DEVELOPER / INTELLISYS D' CORP - WEB PROJECTS | *Intellisys D' Corp - Web Projects*

- Developed optimized **landing pages** using **HTML**, **CSS**, and **JavaScript**
- Implemented **semantic HTML** to improve **accessibility** and **SEO**

LANGUAGES

Spanish

English

- Optimized **performance** and **load times** across multiple projects
- Enhanced **user experience** through responsive design and accessibility improvements

EDUCATION

SOFTWARE DEVELOPMENT TECHNOLOGIST

ITLA

Developed **software development** skills with a focus on **full-stack architecture** and **programming** principles, directly applicable to **full-stack development** roles. Gained **problem-solving** and **analytical thinking** skills essential for designing **robust** and **scalable** systems.

SOFTWARE DEVELOPER

CIC

Acquired **software engineering** fundamentals, including **coding**, **testing**, and **deployment**, with emphasis on **web** and **application development** relevant to **full-stack solutions**.
